

Note:

Administrative boundaries derived from 1:250,000 NAMRIA topographic maps.
Preliminary earthquake-triggered landslide susceptibility map based on percent Gal, Modified Mercalli (MMI) and PHIVOLCS earthquake intensity scale (PEIS).
This map is subject for revision when more empirical earthquake-triggered landslide data becomes available

Output of Inter-Agency Task Force comprised of MGB, PHIVOLCS, PAGASA, BSWM and NAMRIA
Decision map produced through the Intergration of seven (7) Thematic maps
Political Boundary are not considered authoritative

PROVINCE OF PANGASINAN
Map No. 15
**Earthquake-Triggered Landslide
Susceptibility Map**

Source & Date	Philippine Institute of Volcanology and Seismology, 2022
